The ZoLife **mission** is to pursue vitality through a full, active, and purposeful life.

## ABOUT P.I.P. GOLF

- The **ZoLife Parkinson's Immersion Program (P.I.P.)** is a holistic rehabilitation and prevention program designed to improve the safety and **quality of life** for individuals diagnosed with Parkinson's disease.
- **Residents** of the [Glencroft Center for Modern Aging](#) in Glendale, Ariz. diagnosed with Parkinson's may participate in P.I.P. at no cost.
- **P.I.P. Golf** is a customized **therapeutic golf program** designed to improve and delay symptoms associated with Parkinson's disease. It is for residents who want to improve their golf game, **manage symptoms**, and safely **continue golfing**.
- **The P.I.P. Golf Performance Team** includes exercise physiologists with extensive knowledge of golf physiology, PGA-certified golf instructors, speech and physical therapists, and nutritionists who collaborate to maximize individual wellbeing while prolonging the joy of golfing.
- P.I.P. Golf is designed **to improve** functional movement, balance, strength, flexibility, coordination, posture, conditioning, kinematic golf swing mechanics, nutrition, speech, golfing technique, and alleviate depression.
- Instructors use an indoor **virtual reality golf simulator** in a safe environment.
- The [Warren Schutte Players Academy](#) provides outdoor golf instruction at [The Wigwam](#), a resort in Phoenix, Arizona.
- P.I.P. Golf participants spend 1-2 hours per day (golfing or other P.I.P. activities) with other residents diagnosed with Parkinson's.
- P.I.P. provides a **sense of belonging**. It offers daily opportunities to **share common experiences** and **celebrate achievements** among friends.
- For more information about the ZoLife Parkinson's Immersion Program (P.I.P.), and other Glencroft programs, visit our **digital newsroom** at [Glencroft.com](#) or visit [zoelifeonline.com](#).
